

DESTACAMOS DESDE LA REGIÓN DE MURCIA

EVENTO FINAL del proyecto europeo REVERT: Avances pioneros en terapias personalizadas contra el cáncer (10 de diciembre de 2024)

El evento final del proyecto europeo REVERT marca un hito clave y una oportunidad única para aprender sobre sus avances impactantes en terapias personalizadas para el cáncer colorrectal. Reunirá a los responsables de las políticas de la UE, proveedores de atención médica, asociaciones de pacientes y expertos de la industria para explorar los logros del proyecto REVERT y la dirección futura. En este proyecto participa el Servicio Murciano de Salud, así como la FFIS (3rd party del SMS).

Los aspectos más destacados del día incluyen:

- **Debates sobre los impactos regulatorios y clínicos del proyecto.**
- **Sesiones centradas en las asociaciones y las vías para explotar los resultados del proyecto, asegurando su sostenibilidad a largo plazo.**
- **Oportunidades de establecer contactos con partes interesadas clave de toda Europa.**
- **Ya sea que participe en persona o en línea, su participación contribuirá a dar forma al futuro de la atención personalizada del cáncer.**

Fecha: **10 de diciembre de 2024 (09– 16:30)**

Formato híbrido: presencial (Roma) + on-line disponible

* [Para asistir es necesario registrarse antes del 5 de diciembre 2024. Más información sobre el evento aquí.](#)

Equity investments to catalyse larger investments to companies with pre-commitments from investors

Digital, deep tech, biotech, clean tech
SUBMIT APPLICATIONS ANYTIME

* The total budget consists of the programme parts highlighted in the factsheet, along with several other actions, bringing the total budget to €1.4 billion.

BUSINESS ACCELERATION SERVICES

For all EIC awardees, as well as selected applicants:

- Access to **coaches, mentors, expertise** and **training**
- Access to global partners:** leading corporates, investors, procurers, distributors, clients
- Access to **innovation ecosystem and peers**
- Support** to test EIC innovations for potential clients

Total budget of **€1.4 billion**, a nearly **€200 million** increase compared to 2024.

Launch of a **new €300 million initiative** to provide scale up finance up to €30 million as part of Strategic Technologies for Europe (STEP) with shortened evaluation process and facilitated access to Invest EU Venture Debt support. Award of STEP Seal to facilitate access to alternative and complementary funding.

An additional **€250 million** to support earlier stage companies in specific target technologies such as generative AI, new space, agritech, mobility solutions.

€120 million in targeted funding for emerging technologies guided by EIC Programme Managers, such as autonomous robot collectives, and converting waste to input materials.

Business Acceleration Services enlarged to include emerging companies in widening countries as part of a new EIC pre-accelerator scheme.

EIC Pathfinder: Additional emphasis in the application on the potential solutions described in applicants proposals for technology visions.

EIC Transition: More applicants invited to jury interviews; Introduction of Seal of Excellence to facilitate access to other funding for excellent proposals where there is insufficient EIC budget.

EIC Accelerator:

- Investment limit reduced from €15 million to €10 million (higher amounts via STEP Scale Up)
- Applications must have completed Technology Readiness Level 5. Short applications evaluated monthly with results in 4-6 weeks.
